SUPERSTORE ANALYTICS DASHBOARD EXECUTIVE OVERVIEW

Prepared from Superstore dataset (Orders, Returns, People)

Top KPIs:

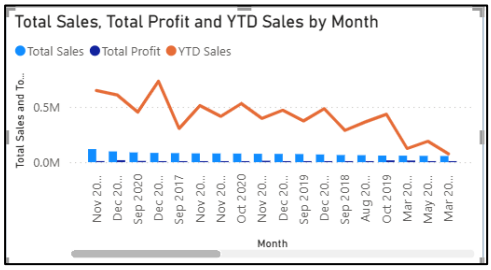
Total Sales: 2.30M	Total Profit: 286.40K	Profit Margin: 0.12	Order Count: 5009

Secondary KPIs:

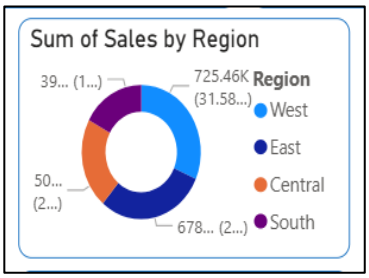
Return Rate: 0.06%	Returned Orders: 286.40K	Avg. Delivery Days: 4.0	On-Time Shipping: 22%

Executive Summary:

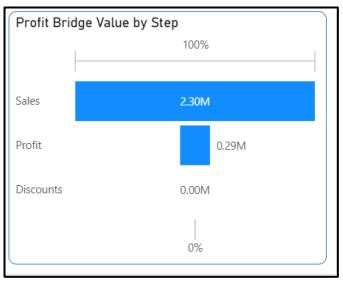
Superstore delivered total sales of **2.30M** with a modest profit of **286K** (profit margin ~ **0.12%**). Sales concentration is highest in the **West** region and within the **Technology** and **Consumer** segments, while **Office Supplies** shows superior margins. Although overall return rates remain low (**0.06%),** returns are concentrated in **Machine, Tables, and Appliances**; logistics performance show only **~22%** on-time shipping with an average delivery time of **4 days**, indicating an operational improvement opportunity. YoY trend shows growth until 2020 and a decline in 2021 suggesting demand or supply pressures in recent periods.



Peak around late 2019, drop thereafter.



West Leads with 31.5% of sales.



Shows conversion from **2.30M sales** to **0.29M profit** after discounts.

Key Takeaways:

Prioritize logistics optimization and discount policy review to protect margins while focusing commercial efforts on high-margin sub-categories (Office Supplies, Accessories, Copiers).
